S 1/4 Cor SEC 22-101-14

This corner was originally established by Deputy Surveyor John Taylor of the U.S. General Land Office in 1853. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder
Tucker Land Surveying

No record of this corner was obtained from the above mentioned offices.

1996 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, searched area with locator and probed by hand around fence corner. Found many stones. Farmer said the fence corner has been used for 60+ years. Accepted fence corner as marking original location of PLS corner. Set 5/8" iron with cap number 22705 on south side of post.

The monument fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
