E 1/4 Cor SEC 14-101-15

This corner was originally established by Deputy Surveyor John Quigley of the U.S. General Land Office in 1853. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Tucker Land Surveying

No record of this corner was obtained from the above mentioned offices.

1891 Clausen notes show a stone at this location.

1997 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, dug with county backhoe at the CL of township road N-S and 265' north of centerline T.H. 56. Located many stones, none could be identified as true corner. Accepted MNDOT tie to corner and township road as the best location of corner. Placed a cast iron monument and made ties.

The monument fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
