E 1/4 Cor SEC 15-101-15

This corner was originally established by Deputy Surveyor John Quigley of the U.S. General Land Office in 1853. The government notes show a wood post was set with a mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder,
Zenk Engineering
Tucker Land Surveying

No record of this corner was obtained from the above mentioned offices.

1994 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, dug by hand at location of corner and found a pointed field stone. Barb wire fragments were also found to the north, south and west of the stone. The stone was accepted as best evidence and a CIM was set on the north side. The stone fit the E-W 16th fence to the south within 1.5'.

The monument fit occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
