STATEMENT OF EVIDENCE

W 1/4 corner Sec 36-101-15

This corner was originally established by Deputy Surveyor John Quigley of the U.S. General Land Office in 1854. The government notes show a wood post was set with a mound of earth and trench.

The following were contacted for section corner information:
Mower County Highway Dept
Mower County Recorder's Office
Zenk Engineering
Tucker Land Surveying

1932 Mower County Highway Department plans show a monument in line with fences east and west and on centerline of highway.

1958 Mower County Highway Department plans show a monument in line with fences east and west and on centerline of highway.

1991 Jones, Haugh & Smith crew dug with County backhoe in line with fences east and west and on centerline of north-south centerline. We found an 8"x14" pointed field stone. Left stone as found and set cast iron monument near road surface.

The monument found fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
