STATEMENT OF EVIDENCE

SE cor Sec 36-101-16

This corner was originally established by Deputy Surveyor Andrew Talcott of the U.S. General Land Office in 1853. The government notes show a wood post was set with a mound of earth and trench.

The following were contacted for section corner information:
Mower County Highway Department
Mower County Recorder
Zenk Engineering
Tucker Land Surveying

No information was obtained to support evidence of the perpetuation of the original public land survey corner.

1993 Jones, Haugh & Smith Inc crew under the direction of John H. Schulte IV, RLS 13807, dug a 3'x6'x6' hole on centerline centerline of Township Roads No. T-61 and T-211. We found a 6" diameter x 18" concrete monument with an iron in center which was in virgin soil. Therefore we accepted concrete monument as the perpetuation of the public land survey corner and set a cast iron monument on iron in center of monument found.

The monument found and cast iron monument set fits occupation lines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
