STATEMENT OF EVIDENCE

N 1/4 corner Section 16-101-17

This corner was originally established by Deputy Surveyor Charles Phipps & Edward Fitzpatrick of the United States General Land Office in 1854. The government notes show this corner was marked with a charred stake in a mound of earth with a trench.

The following were contacted for section corner information:

Mower County Highway Department
Mower County Records Office

1989 Jones, Haugh & Smith Inc. crew together with the Mower County backhoe operator dug a hole 5'x30'x4' deep and found no further evidence of public land survey or a perpetuation thereof.

Therefore we placed a 5/8" diameter x 16" iron capped RLS 13807 on a straight line and at the midpoint between northeast & northwest section corners. This location fits occupation and road centerlines within the section and is accepted as
best evidence of a perpetuation of the original public land survey corner.

For electronic survey data and analysis, contact firm of Jones, Haugh & Smith.
