STATEMENT OF EVIDENCE

W 1/4 corner Section 26-101-17

This corner was originally established by Deputy Surveyor Edward Fitzpatrick of the United States General Land Office in 1853. The government notes show this corner was marked with a charred stake and a mound of earth with trenches.

The following were contacted for section corner information:

Mower County Highway Department
Mower County Records Office

No information was obtained to support evidence of the public land survey corner or a perpetuation thereof.

1989 Jones, Haugh & Smith Inc. personnel together with the Mower County backhoe operator dug on the centerline N-S road in line with fence E-W and uncovered a 2 1/2" diameter decayed wood post 2' below road surface in virgin soil. Placed a 5/8" diameter x 16" iron capped RLS 13807 over wood post on road surface.

The monument found fits occupation and road centerlines within the section and is accepted as best evidence of the public land survey corner or a perpetuation of.

For electronic survey data and analysis, contact firm of Jones, Haugh & Smith.
