SW Cor SEC 35-102-18

This corner was originally established by Deputy Surveyor William Anderson of the U.S. General Land Office in 1854. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder
Zenk Engineering
Tucker Land Surveying

No record of this corner was obtained from the above mentioned offices.

1994 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, dug with county backhoe at CL CL intersection of twp. roads. No evidence of the corner was found. A cast iron monument was set on a straight line between the south 1/4 corner of section 34 and the south 1/4 corner of section 35, in line with the road centerlines.

The monument fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
