STATEMENT OF EVIDENCE

NW corner Sec 9-101-18

This corner was originally established by Deputy Surveyor William I. Anderson of the U.S. General Land Office in 1854. The government notes show a wood post was set with a mound of earth and trench.

The following were contacted for section corner information:
Mower County Highway Dept
Mower County Recorder
Zenk Engineering
Tucker Land Surveying

The following evidence was obtained to support a perpetuation of the original public land survey corner.

Book A in the Office of the Mower County Highway Department indicates a cast iron monument down 5" at the corners of Sections 4, 5, 8 & 9.

1992 Jones, Haugh & Smith Inc crew under the direction of John H. Schulte IV, dug with County backhoe on centerline centerline and uncovered a MN DOT cast iron monument 1" deep. Continued digging and found a 1"x4" iron bar under cast iron monument four feet deep in virgin soil. Left monuments as found and reset cast iron monument over iron bar.

The monument found fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.

DOCUMENT NO. 332585

M.H.D. FORM NO. 2105

Statement of Evidence:

NE Corner Section 8 T101N R18W 5th P.M.

July 1854 William I. Anderson, Deputy Surveyor, set post at the corner, deposited charcoal, raised mound of earth with trench and pits during the original Public Land Survey.

July 9, 1896 M.N.Clausen, Surveyor and Civil Engineer, in a recorded survey shows an iron stake at the corner.

Oct. 1973 Mower County Highway Department recovered an 1½" x 1½" iron stake at the corner and placed a cast iron monument over it.

An analysis of the survey and record data indicates that the iron stake has marked the corner since 1896 and is, therefore, accepted as marking the Public Land Survey corner.

For details of the survey data, contact the Surveying and Mapping Section of the Minnesota Department of Transportation's Rochester District Office.
