STATEMENT OF EVIDENCE

SW corner Section 11-101-18

This corner was originally established by Deputy Surveyor William I. Anderson of the U.S. General Land Office in 1853. The government notes show a wood post and a charred stake were set with a mound of earth and trench.

The following were contacted for section corner information:
Mower County Highway Department
Mower County Recorder
Zenk Engineering
Tucker Land Surveying

The following information was obtained to support evidence of a perpetuation of the original public land survey corner.

1987 Jones, Haugh & Smith Inc. crew dug with the Mower County backhoe on centerline centerline of north-east-west road and in line with fence south. Uncovered a 6" diameter concrete monument with a 3/4" diameter iron cast in center 3.5 feet below road surface. Placed a cast iron monument at road surface over concrete monument found.

1991 Jones, Haugh & Smith Inc. crew under the direction of John Schulte uncovered a cast iron monument 0.7' below road surface for Mower County Highway Department Grading Project County State Aid Highway #5 SAP #50-605-10. Left monument as found and new ties were recorded.

The monument fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
