STATEMENT OF EVIDENCE

S 1/4 corner Section 18-101-18

This corner was originally established by Deputy Surveyor William Anderson of the U.S. General Land Office in 1854. The government notes show a wood post was set with a mound of earth and trench.

The following were contacted for section corner information:
Mower County Highway Dept.

1994 Jones, Haugh & Smith crew dug a trench at the corner location with a backhoe. No evidence of monumentation of the original public land survey corner was recovered. The intersection of centerlines of the township roads were accepted as the best remaining evidence of the location of the corner.

The centerline intersection fits occupation and other road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.

For electronic survey data and analysis contact the firm of Jones, Haugh & Smith Inc.
