N 1/4 Cor SEC 27-101-18

This corner was originally established by Deputy Surveyor William Anderson of the U.S. General Land Office in 1854. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder
Zenk Engineering
Tucker Land Surveying

No record of this corner was obtained from the above mentioned offices.

1883 Clausen field notes show stone at corner.

1996 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, dug with county backhoe at CL CL of township road N-S and township road E-W. Located pointed stone 3.5' below road surface. Accepted stone as perpetuation of original PLS corner. Placed a cast iron monument over stone found.

The monument fits occupation and/or road centerlines within the section and/or recorded plats and is accepted as best evidence of a perpetuation of the original public land survey corner.
