E 1/4 Cor SEC 30-101-18

This corner was originally established by Deputy Surveyor William Anderson of the U.S. General Land Office in 1854. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder
Zenk Engineering
Tucker Land Surveying

No record of this corner was obtained from the above mentioned offices.

1993 Jones Haugh and Smith crew, under direction of John Schulte, Freeborn County Surveyor RLS 13807, dug with county backhoe at intersection CL twp. road and in line with fence line north. No evidence was found. Local resident stated that road had been obliterated by a flood a few years before, destroying any evidence of the corner. Accepted the road CL and fencline as best evidence of the corner and set a CIM at the surface.

The monument fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
