STATEMENT OF EVIDENCE

NW corner Section 17-102-16

This corner was originally established by Deputy Surveyor John Quigley of the United States General Land Office in 1853. The government notes show this corner was marked with a wood post in a mound of earth with a trench.

The following were contacted for section corner information:
Mower County Highway Department
Mower County Records Office

1989 Jones, Haugh & Smith Inc. crew dug with the county backhoe operator and uncovered a 1" x 2" wood stake 1' below road surface. Continued digging and found a 6" diameter concrete monument with a ½" diameter iron in center 2.5' below road surface.

Therefore aceppted 1" x 2" wood stake and 6" diameter concrete monument as evidence of public land survey corner. Placed a 5/8"Ø x 16" iron capped RLS 13807 over monument.

Corner found fits occupation and road centerlines within the section. For electronic survey data and analysis, contact firm of Jones Haugh & Smith.
