DOCUMENT NO. _____

M.H.D. FORM NO. 2105

E 1/4 Corner Section 3-T103N-R14W

Deputy Surveyor John Taylor of the U.S. General Land Office originally established this corner in 1853 . The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Department
Mower County Recorder
Tucker Land Surveying

2004 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, traversed around section locating occupation and other section information. This information was used to compute a location for this quarter corner. Using the computed location and existing occupation near the subject corner a search was done and no evidence of the corner was found. Computed location which is in agreement with the relevant section information and occupation lines.

The monument set is in agreement with the record and is accepted as best evidence of a perpetuation of the original public land survey corner.
