W 1/4 Cor SEC 14-103-14

This corner was originally established by Deputy Surveyor John Taylor of the U.S. General Land Office in 1853. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder
Tucker Land Surveying

No record of this corner was obtained from the above mentioned offices.

1994 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, dug with county backhoe. Found large stone 2.5' deep under mass of barb wire. Stone was 0.75' under old road bed, 2.5' below road surface. Accepted stone as corner, placed 5/8" iron with cap 13807 on north side of stone and 5/8" iron 16" long with cap 13807 above stone, 4" below road surface.

The monument fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
