DOCUMENT NO. _____

M.H.D. FORM NO. 2105

N 1/4 Corner Section 22-T103N-R14W

Deputy Surveyor John Taylor of the U.S. General Land Office originally established this corner in 1853. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder

2002 Jones Haugh and Smith crew traversed through section 22-T103N-R14W and tied in existing corners, occupation and fence lines and computed location of the N ¼ corner to be at intersection of fence lines north, south and west.

2003 Schwarz Land Surveying crew dug by hand at the intersection of line fence North, South, and West. Found nothing. Placed a ½" iron pipe at Jones Haugh and Smith computed position at the intersection of fences and took ties.

The monument is in agreement with the record and is accepted as best evidence of a perpetuation of the original public land survey corner.
