DOCUMENT NO. _____

M.H.D. FORM NO. 2105

W 1/4 Corner Section 21-T103N-R16W

Deputy Surveyor John Quigley of the U.S. General Land Office originally established this corner in 1853. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder
Tucker Land Surveying

2004 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, dug with county backhoe at the centerline of township road north-south field division east. Dug 3.5' x 8' hole and uncovered a large stone. The stone fits centerline of road and field division east. Accepted stone as the best perpetuation of the original PLS corner. Placed a 5/8" x16" rebar capped #13807 on the south side of stone found. Placed a 5/8"x16" rebar with cast iron monument above stone 0.60' below road surface.

The monument is in agreement with the record and is accepted as best evidence of a perpetuation of the original public land survey corner.
