STATEMENT OF EVIDENCE

W 1/4 corner Sec 16-103-17

This corner was originally established by Deputy Surveyor William I. Anderson of the U.S. General Land Survey Office in 1854. The government notes show this corner was marked with a charred stake and a mound of earth with a trench.

The following were contacted for section corner information:

Mower County Engineering Department
Mower County Recorders Office

1990 Jones, Haugh & Smith crew dug a hole 4'x20'x4' deep with a backhoe on centerline of north-south road and uncovered a 3" diameter charred wood post over a pointed field stone 3.0' deep in virgin soil. Placed a 5/8" diameter iron on north side of stone and a capped (13807) iron over stone at road surface.

Corner found fits past government notes and road centerline and is accepted as best evidence of a perpetuation of the public land survey corner.

For electronic survey data and analysis contact the firm of Jones, Haugh & Smith Inc.
