DOCUMENT NO. _____

M.H.D. FORM NO. 2105

NW Corner Section 19-T103N-R16W

Deputy Surveyor John Quigley of the U.S. General Land Office originally established this corner in 1853. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Department
Mower County Recorder
Tucker Land Surveying

No record of this corner was obtained form the above mentioned offices.

2003 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, dug with backhoe on the centerline of the East-West township road and in line with line fence remains North. Dug a 18'x15' hole, 3' deep and found evidence of the original PLS corner. Set a cast iron monument 0.6' below road surface on centerline E-W Twp. Road by intersecting road with a straight line between the W 1/4 cor Sec 18 & the SW cor of Sec 19.

The monument fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
