E 1/4 Cor SEC 31-103-17

This corner was originally established by Deputy Surveyor William I. Anderson of the U.S. General Land Office in 1854. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder
Zenk Engineering
Tucker Land Surveying

Mower County Highway Department records show a corner at this location.

1972 Jones Haugh and Smith crew, dug and found a 5/8" iron in line with east and west fence line.

1995 Jones Haugh and Smith crew located corner, found 5/8" iron on centerline of CSAH NO. 24 and in line with field division west and fence line east which was in agreement with Mower County Highway Department records and 1972 Jones Haugh and Smith records. Set cast iron monument over 5/8" iron found at road surface.

The monument fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
