STATEMENT OF EVIDENCE

N 1/4 corner Section 36-104-14

This corner was originally established by Deputy Surveyor John Taylor of the U.S. General Land Office in 1853. The government notes show a wood post was set with a mound of earth and trench.

The following were contacted for section corner information:
Mower County Highway Dept
Mower County Recorder's Office
Zenk Engineering
Tucker Land Surveying

1883 Clausen, County Surveyor, shows a wood post found at this location and his chaining notes show 40.24 chains = 2655.84 feet west and east of 1/4 corner.

1991 Jones, Haugh & Smith Inc crew dug on centerline east-west road in line with fence north-south at which point is at the midpoint of the section and found no evidence of public land survey corner or a perpetuation thereof. Therefore set cast iron monument on straight line between section corners at the midpoint.

The monument fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
