S 1/4 Cor SEC 30-104-16

This corner was originally established by Deputy Surveyor John Fitzpatrick of the U.S. General Land Office in 1853. The government notes show a wood post was set with mound of earth was built with a trench around.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder
Zenk Engineering
Tucker Land Surveying

No record of this corner was obtained from the above mentioned offices.

1991 Jones Haugh and Smith crew dug, at the CL of County Road No. 57 and in line with line fence N-S, with the county backhoe and found no evidence of the original PLS corner.

1995 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, placed a cast iron monument on a straight line between the SW and the SE section corners line with fence line North.

The monument fit occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
