STATEMENT OF EVIDENCE

S 1/4 corner Sec. 11-104-17

This corner was originally established by Deputy Surveyor John Fitzpatrick of the U.S. General Land Survey Office in 1853. The government notes show this corner was marked with a wood post, stone and a mound of earth with a trench.

The following were contacted for section corner information:

Mower County Engineering Department
Mower County Recorders Office

1990 Jones, Haugh & Smith crew along with a private backhoe dug a hole 3'x3'x8' deep on centerline centerline of east-west-south roads in line with fence north. Uncovered a 1/2" diameter iron 0.3 feet below road surface. Continued digging and found remains of a wood post 2.5 feet deep. A cast iron monument was placed over post and iron found.

Corner found fits occupation and road centerline and is accepted as best evidence of the public land survey corner.

For electronic survey data and analysis contact the firm of Jones, Haugh & Smith Inc.
