STATEMENT OF EVIDENCE

N 1/4 corner Sec 18-104-18

This corner was originally established by Deputy Surveyor William J. Anderson of the U.S. General Land Office in 1854. The government notes show a wood post was set with a mound of earth and trench.

The following were contacted for section corner information:
Mower County Highway Dept
Mower County Recorder's Office
Zenk Engineering
Tucker Land Surveying

1940 Mower County Highway Dept plans show a monument at the N 1/4 corner in line with fence south, 2509.2 feet east of the northwest corner and on centerline of highway.

1991 Jones, Haugh & Smith crew dug a large hole in line with fence south and on centerline of highway and found no evidence of public land survey monument. We then placed a cast iron monument using the distance of 2509.20 west, centerline of highway.

The monument found fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.

For electronic survey data and analysis, contact the firm of Jones, Haugh & Smith Inc.
