S 1/4 Cor SEC 13-104-18

This corner was originally established by Deputy Surveyor William Anderson of the U.S. General Land Office in 1854. The government notes show a wood post was set with mound of earth and trench.

The following were contacted for section corner information.

Mower County Highway Dept.
Mower County Recorder
Zenk Engineering
Tucker Land Surveying

No record of this corner was obtained from the above mentioned offices.

1988 Jones Haugh and Smith crew, under direction of John Schulte, Mower County Surveyor RLS 13807, searched in area of fence intersection near a wood fence post with metal locator and shovel. No evidence was found of the original PLS corner and the wood post was accepted as best evidence of the corner. A 5/8" iron with cast iron head was placed on the west side of the post.

The monument fits occupation and road centerlines within the section and is accepted as best evidence of a perpetuation of the original public land survey corner.
