Statement of Evidence

NORTHEAST CORNER SECTION 27, TOWNSHIP 104 NORTH, RANGE 18 WEST, 5TH P.M.

Aug., 1854 — William J. Anderson, Deputy Surveyor, set a post at the corner during the original Public Land Survey.

June 1885 — Clausen Field Notes show a government post, which as used to subdivide Section 26.

1962 — County Engineers Road Plans show a concrete monument and stone inplace.

July 1990 — Zenk Read Trygstad & Associates found a stone 1'x0.7'x0.8' high and 1.4 feet below the surface.

A concrete monument was found over the stone 0.3 feet below the surface.

An analysis of the record gives no indication of the origin of the stone. The concrete monument over the stone shows the County has used and maintained this location for 28 years. Other stones and concrete monuments have been found at corners throughout the county. The stone is accepted as marking the location of the original Public Land Survey Corner.
