Register of Deeds _____

By _____, Deputy

DOCUMENT NO. _____

M.H.D. FORM NO. 2105

East Quarter of Section 19, Township 103N, Range 14W, 5th P.M.

Statement of Evidence:

September, 1853	John Taylor, U.S. Deputy Surveyor, set a post with a handful of charcoal for the corner during the Original Public Land Survey.
1932	Minnesota Highway Department calls for 2" x 2" wood hub on centerline of T.H. #16 and centerline township road to the north.
March 17, 1983	MN/DOT found a brass plug which is also a P.I. with stationing of 1166 + 89.6. The plug is 2.1' south of centerline T.H. #16 and 1' east of centerline of township to the north.
Jan. 9, 1989	Doug Rude, Yaggy Colby Associates, found a brass plug which checked the MN/DOT 1983 ties.

An analysis of the record and survey data indicate the occupation centerline of the county road north and state highway east-west are a perpetuation of the Original Public Land Survey Corner. The brass plug used by the MN/DOT is accepted as marking the East Quarter Corner of Section 19.

For further information, contact Yaggy Colby Associates, Rochester, Minnesota.
