N 1/4 cor 20-101-14

No record of perpetuation of the orig pls cor was found.
Excavated trench 5' wide x 2.5' deep from 4'S of Fence line to east to 44'N on E to natural clay. Found 8" ø stone at natural ground level. The stone position gives more realistic dimensions to the sections to the north & south. 1942 plat book shows one owner for the land in the S 1/2 of Sec 17 & N 1/2 of Sec 20; therefore the fence on the e side of the road is presumed to be to contain cattle only, and not indicate a line of possession. The stone is accepted as marking the location of the orig. pcs corner.
